

Jacob Handelman

(514) 378-3311

jacobhandelman@gmail.com
[linkedin.com/in/jacob-handelman](https://www.linkedin.com/in/jacob-handelman)

Technical Skills

Languages & Frameworks: JavaScript, React, Node.js, Express, Tailwind, HTML, Sass, CSS

Development Tools: Visual Studio Code, Git, Webpack

Operating Systems: macOS 10+, Microsoft Windows 7/8/10/11

Projects

Portfolio

<https://jacobhandelman.com>

- A personal portfolio that displays some of the projects that I have worked on.
- Technologies used: React, Tailwind, GitHub Pages

Shopping Cart

<https://github.com/Dezzep/shopping-cart>

- A mock clothing store where you can add and remove clothes from your shopping cart. All of the items in the shop are fetched from a premade backend and displayed in a grid.
- Technologies used: React, Tailwind, DaisyUI, GitHub Pages

Weather App

<https://github.com/Dezzep/weather-app>

- Uses *Open Weather Map* to obtain a location's forecast. Converts temperatures and averages out received data to determine the five day forecast.
- Technologies used: Javascript, SCSS, Webpack, GitHub Pages

Work Experience

Proscape Enterprises Inc

April 2019 – 2022

Pierrefonds, QC

- Read and interpreted blueprints, specifications and schematics
- Used hand tools and power tools to complete skilled deck building
- Completed precise joining and high-quality finish work by properly anchoring and bracing structures

St-Viateur Bagel

March 2016 – 2019

Dollard des Ormeaux, QC

- Made bagel dough, rolled bagels and baked them.
- Performed customer transactions
- Filled out inventory and production sheets

Conform Action Data Systems

June 2014 – 2016

Dorval, QC

- Processed Material Safety Data Sheets (MSDS), ensuring that they were up-to-date as required by the law.
- Scanned documents and saved them in the database to keep records of essential information
- Corrected data entry errors to prevent duplication or data degradation
